Introduction and general information

The Call for project proposals is a core component of the program ArtPower Belarus: Safeguarding the Belarusian Civic Space Through Culture and Arts, funded by the European Union (EU) and implemented by the Danish Cultural Institute in partnership with the Belarusian Council for Culture.

The program aims to support independent Belarusian culture and art initiatives by strengthening their role and capacities as democratic change-makers.

Disclaimer

Please note that this program is being implemented with support from the EU for a broad range of civil society organizations and initiatives (both registered and unregistered) operating in the field of culture in Belarus or abroad. Due to the broadness and complexity of the geography of the program, there could be discrepancies between legal interpretations of various terms in local legislation of the applicants. For the purposes of this program, the definitions written in this document shall prevail over any official local legal definitions.

If there are any concerns about how a certain term could be interpreted within the framework of this call for project proposals, please contact the organizers for clarification.

As part of the call, special attention will be given to projects that align with the following priorities:

1. Fostering the integrity of the Belarusian cultural space:

- Projects created by authors who live in Belarus or are oriented toward a Belarusian audience within the country, even under current challenging conditions.
- Initiatives involving authors and experts from Belarus, even if the main part of the project is implemented abroad.
- Projects that hold exceptional value for Belarusian culture¹.

2. Enhancing the quality and visibility of cultural products, improving working conditions for cultural actors, and fostering their integration into the European space:

- Educational programs and initiatives aimed at developing professional skills in the cultural sector, as well as research projects.
- Development of professional and cross-sectoral networks, international cooperation, and knowledge exchange.
- Educational projects aimed at children and youth or implemented by them.

¹ A project holds exceptional value for Belarusian culture when its product(s) are accessible to every Belarusian, regardless of their geographical location, and equally meaningful to any individual seeking to preserve and develop their cultural identity. At the same time, the project's product(s) must have long-term significance: they will remain in history as evidence of the time and of cultural creativity and will be useful to future generations for years and decades to come.

- Advocacy and information campaigns, as well as new forms of promoting Belarusian culture.
- Innovative products that contribute to the development of the cultural sector.

3. *Development of institutions and infrastructure:*

- Support for projects that strengthen independent cultural institutions and networks and contribute to the sustainable development of the sector.

The application must be submitted on behalf of the applicant through their own account. If the applicant is located in Belarus, the submission may be carried out by an authorized representative; in such a case, this must be clearly indicated in the application.

What projects are supported?

Support may be used for the implementation of small-scale initiatives, urgent actions, mobility activities (e.g., participation in international events,

residencies, educational programmes, research), or the completion of projects that are at risk of disruption. The funding amount ranges from €1,000 to €10,000. Projects may last from one month to one year. Applications are accepted on a rolling basis, and the selection committee meets 1–2 times per month depending on the number of applications.

Amount and timeline

- Grant amount: €1,000 – €5,000 (in exceptional cases up to €10,000)⁵
- Implementation period: from 1 to 12 months;
- Application: open on a rolling basis;
- Selection: 1–2 times per month depending on the number of applications;
- Project start: no earlier than 5 weeks after the application submission.

Evaluation: Each project submitted under this track will be evaluated based on the urgency and relevancy of the activities described, as well as the quality and validity of submitted supporting documentation.

Evaluation and selection of project proposals

Every Applicant will be subject to a verification process.

Each of the submitted project proposals will be reviewed for compliance with the following eligibility criteria:

1. Provision of the requested information and supporting documentation, including, but not limited to:
 - Personal data;
 - Education;
 - Work experience;
 - Any other relevant supporting documentation.
2. Applicants must possess the professional competencies as well as the relevant qualifications required to complete the proposed project.
3. Applicant must submit an application through the electronic grant system with all of the indicated required attachments.

Each project proposal will be evaluated by at least two independent Assessors according to the evaluation grid (the criteria and scores are indicated in the section for each Track).

Track 3 will follow a simplified selection procedure – after due diligence checking, the Selection Committee reviews the application.

⁵ In which cases it is possible to apply for up to €10,000:

- Collective urgent mobility – participation of 5 or more people.
- A joint project by several authors in a vulnerable condition (each author must provide supporting documents corresponding to one or more Track 3 criteria).
- Loss of funding during project implementation (cases where a funding agreement had been secured, project implementation had started, and the funding was terminated for reasons beyond the author's control).

The honorarium for a single author may not exceed €4,000.

The Selection Committee reserves the right to:

- provide recommendations for improvement to leading candidates;
- initiate budget revisions and alterations;
- recommend the type of funding.

Based on the results of the Selection Committee's review of the applications, pre-approved projects may be returned for revision. The final decision to support such a project will be made after the Applicant has made appropriate changes to the application or budget.

The decision to support a submitted project is preliminary until the grant agreement is signed with the Applicant. Following the Selection Committee's decision, proposed project budgets and/or activities may be reviewed and adjusted. The exact start date for selected projects will be confirmed during pre-contracting negotiations.

The final decision depends on:

- on the Applicant's timely communication;
- submission of all information required to sign the grant agreement;
- and the completeness and reliability of such information.

Failure to provide timely and complete information and to respond to questions without prior notice, or providing incomplete or unreliable information, may result in reversal of the decision to support the project, with funds being redirected to another project.

Applicants will be informed of the selection results within two weeks after the Selection Committee meeting. Applicants may request expert feedback within two weeks after receiving the results.

- Costs must be necessary for project implementation;
- Costs must be incurred during the project period;
- Costs must be identifiable and verifiable (supporting documentation such as receipts, invoices, contract agreements, bank statements, etc.), and compliant with applicable tax and social legislation.

Project expenses must correspond to the planned types of activities specified in the application budget. Examples include personnel, travel, equipment, and subcontracting costs.

Funding is provided only according to the approved project budget. Any unforeseen expenses incurred during implementation must be agreed upon in advance with the ArtPower Belarus management team.

Expense verification will be carried out for every project at the time of interim or final report by financial controller at the Danish Cultural Institute or Belarusian Council for Culture.

Ineligible costs

The following costs cannot be covered by the grant issued under this Call:

- costs financed by other programs or donors;
- fees, taxes, including VAT, unless they are non-recoverable under national tax legislation;
- debts and debt servicing (interest payments);
- provisions for losses or potential future liabilities;
- purchase of land or buildings;
- currency exchange losses;
- loans to third parties;
- fines, penalties, and legal expenses related to organizational activities.

If the project proposal includes the following types of expenses, it is strongly advised to contact the organizers of the call via email regarding the extent to which they could be reimbursed: visas and / or travel insurance; any type of subscriptions; purchase of equipment. Please reach out only with specific questions, as individual consultations are not provided for within this program.

Under this type of reimbursement, the Grantee will have to submit both, financial and narrative reports together with the relevant supporting documentation.

Costs exceeding the total approved grant amount will not be reimbursed. Costs not included in the approved project budget, or not separately approved in writing by the Grantor, will not be reimbursed.

Costs without adequate supporting documentation will not be reimbursed. Please note that no cash payments made outside of Belarus will be reimbursed, unless agreed in advance with the Grantor, and for those payments made in cash in Belarus, IDs of the recipients will be required. Cost will be reimbursed only if they have occurred within the duration of the project.

Preliminary payment schedules for mini and midi projects

For projects with a total budget of up to 10 000 EUR, payments will be made in two installments, unless otherwise specified in the Grant Agreement:

- 80% of the grant amount will be provided as an advance payment for the execution of project activities.
- Up to 20% of the approved total grant amount will be transferred to the Grantee after the approval of the Final Narrative and Financial reports depending on the actual amount of costs incurred.

For projects with a total budget amount over 10 000 EUR and up to 60 000 EUR, the payments will be made in three installments, unless specified otherwise in the Grant Agreement:

- 40% of the total approved grant amount is provided as an advance payment for the Grantee to be able to start implementing the project activities.
- 40% of the total approved grant is provided after the submission and approval of the Interim Narrative and Financial reports.

- Up to 20% of the approved total grant amount will be transferred to the Grantee after the approval of the Final Narrative and Financial reports, depending on the actual amount of costs incurred.

Outcome-Based Contracting (OBC) — only applicable for Applicants inside Belarus

In some cases, approved Applicants might be offered an Outcome-based contract. Under this type of contract, payments are tied to achieving predefined outcomes.

Please note that OBCs have different reporting requirements and budget verification procedures, which will be discussed in detail before contracting.

In the vast majority of cases reporting for this type of contracting will require only detail narrative reports with supporting documentation showing that the planned activities took place without any financial reporting or with partial financial reporting for certain budget lines.

Payment Schedules under this type of contracting will be discussed with each successful Applicant individually, but the general rule is that all payments will be made as reimbursement for the results achieved and in cases when the results were not achieved or were achieved only partially, the Grantee will be eligible to receive reimbursement which is proportionate to the result achieved and not to the funds actually spent.

If you have any questions related to this type of contracting and would like to know whether your project idea is eligible for such funding mechanism, please formulate your request in written and submit to the organizing team via email for more details.

Co-financing

Grants can cover up to 100% of eligible costs. Co-financing is not required but encouraged where Applicants can contribute additional resources. Please note that co-funding and any additional funding from other donors must be confirmed with proof of receipt (e.g., donor agreement, bank statement, etc.), with at least 20% of the total cost already funded by another grant.

If the application is successful, then proof of co-funding will be requested before signing a grant agreement. Also, in cases when the project is implemented with co-funding, the Grantee must account for the whole scope of the project activities.

Own funds (self-financing) are not considered co-financing, but they may be additionally indicated in the project budget.

Project visibility

For projects implemented outside Belarus, visibility requirements will be mandatory, unless agreed otherwise in the contract. Activities and results of

such projects must be public and visible. All public mentions of the supported project and its products must include acknowledgment of support from the European Union under program ArtPower Belarus. However, in case of compelling need, an exception to this requirement may be considered.

Applicant support

Online information sessions will be organized, during which Applicants' questions related to this project call will be addressed. Follow updates on byculture.org/en/artpower-belarus-eng and consult the Questions and Answers (Q&A) section, where frequently asked questions will be published. 1. Personal data and grant applications protection

- Official communication only: All messages from the grantor will be sent exclusively through the official application portal.
